

MONIKA BODDU

Software Developer — Full Stack Developer — AI/ML Enthusiast

☎ +91-7815938631 ✉ monika.boddu05@gmail.com 🔗 LinkedIn 🐙 GitHub

Rajamahendravaram, Andhra Pradesh, India

Professional Summary

Detail-oriented and highly motivated B.Tech Computer Science student with strong academic knowledge and practical experience in full-stack web development, machine learning, cloud computing, and cybersecurity fundamentals. Skilled in designing and developing responsive web applications using React.js, Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, PHP, and MySQL. Experienced in developing AI/ML-based projects involving image processing, object detection, and deep learning techniques. Familiar with AWS cloud services, deployment concepts, and collaborative software development using Git and GitHub. Strong problem-solving, teamwork, communication, and leadership skills with a passion for learning emerging technologies and building scalable user-centric solutions.

Technical Skills

Programming Languages: JavaScript, Java, Python, C, C++, SQL, PHP

Web Technologies & Frameworks: React.js, React Native, Node.js, Express.js, HTML5, CSS3, REST APIs

AI/ML & Data Science: Machine Learning, Deep Learning, Cascade Mask RCNN, ResNeXt152 + FPN, Roboflow, Kaggle, Google Colab, Image Processing

Cloud & DevOps: AWS (S3, Route 53), Cloud Computing, Git, GitHub, Deployment Concepts

Databases: MongoDB, MySQL, Database Management Systems

Design & Productivity Tools: Figma, Canva, UI/UX Design, Microsoft Word, Excel, PowerPoint

Education

B.Tech in Computer Science & Engineering

Sagi Ramakrishnam Raju Engineering College

2023 – 2026

CGPA: 8.19/10

- Focused on subjects including Data Structures, Operating Systems, DBMS, Artificial Intelligence, and Software Engineering.
- Actively participated in technical workshops, hackathons, and project-based learning activities.

Diploma in AI & Computer Science

ISTIS Women's Engineering College

2020 – 2023

CGPA: 8.16/10

- Built foundational knowledge in programming, networking, databases, and machine learning concepts.
- Worked on academic mini-projects and participated in technical seminars and competitions.

Professional Experience

Software Development Intern

Bodha Software Technologies

Jul 2025 – Oct 2025

India

- Developed and enhanced responsive web applications using modern web development technologies and clean coding practices.
- Worked collaboratively with development teams to debug issues, optimize performance, and improve user experience.
- Participated in testing, feature implementation, and software maintenance activities in agile environments.
- Gained practical exposure to frontend-backend integration and deployment workflows.

Cloud Computing Intern

NIELIT Virtual Academy

Jun 2024 – Jul 2024

India

- Learned cloud deployment models, virtualization concepts, and cloud storage systems.
- Worked on cloud-based application management and scalability concepts.
- Explored AWS services and cloud infrastructure fundamentals for modern application development.

Cybersecurity Intern

Blackbucks

May 2025 – Jul 2025

India

- Learned cybersecurity fundamentals including network security, vulnerability analysis, and threat detection.
- Explored secure coding practices, ethical hacking concepts, and application security techniques.
- Worked on identifying common cyber threats and preventive security measures.

Key Technical Projects

Underwater Object Detection System | *Python, Machine Learning, Deep Learning*

- Developed a machine learning-based underwater object detection system using image processing and deep learning techniques.
- Performed dataset preprocessing, image annotation, and model optimization to improve detection accuracy and performance.
- Utilized advanced object detection architectures and testing metrics for efficient classification.

Hospital Slot Booking System | *HTML, CSS, JavaScript*

- Designed and developed a responsive hospital appointment booking web application with intuitive user interfaces.
- Implemented appointment scheduling forms, frontend validations, and interactive functionalities using JavaScript.
- Enhanced overall user experience through responsive layouts and efficient navigation design.

Movies Now Application | *React.js, APIs*

- Built a React.js-based movie browsing application using reusable component architecture and API integration.
- Fetched and displayed real-time movie information dynamically through external APIs.
- Implemented search and filtering features to improve application usability and user interaction.

Plant E-commerce Website | *PHP, MySQL, HTML, CSS*

- Developed a dynamic plant e-commerce website with product catalog browsing, shopping cart management, and online ordering functionalities.
- Implemented user authentication, order tracking, and database integration using PHP and MySQL.
- Designed responsive frontend pages and optimized backend connectivity for smooth user experience and efficient product management.

Achievements & Certifications

Smart India Hackathon 2024 Participant

Participated in a national-level innovation competition and collaborated with a team to develop technical problem-solving ideas.

Executive Body Member (EBM), SRKR ISTE

Actively contributed to organizing and managing technical events, workshops, and student engagement activities within the college.

Worked as a mentor for **Presencia**, a PPT Presentation Competition.

Coordinated **Clickomania**, a Photography Competition, and worked as a **YouTube Handler** supporting event promotions and online engagement activities.

Contributed to the **Photoshop Department** by assisting in poster designing, promotional creatives, event banners, and digital media content for technical events including SAHARA and NIPUNA 2025.

Certifications

C++ Certificate, Cloud Computing Internship, Cybersecurity Internship, MERN Stack Internship

Extra Curricular Activities

Technical Event Coordination

- Participated in organizing workshops, coding events, and technical engagement activities within the college.
- Collaborated with teams to manage event planning, coordination, and successful execution.

Continuous Learning & Skill Development

- Regularly explore emerging technologies related to AI/ML, web development, and cloud computing through online learning platforms and practical projects.
- Actively practice coding and problem-solving to strengthen analytical and technical skills.

Interests

Full Stack Web Development • Artificial Intelligence & Machine Learning • UI/UX Design • Cloud Computing • Problem Solving • Photography • Content Creation • Event Management
